

MY OUTDOOR AGENDA FOR ALASKANS.

- **Secure the State's right to manage its own resources**
- **Work to increase harvest levels for human consumption**
- **Support predator control**
- **Ensure access to public resources**
- **Support balance on the Board of Fish and the Board of Game**

As a third generation Alaskan, pilot, riverboat captain, hunter and fisherman, I regard access to Alaska's wildlife, fish and public places as the most important aspect of the Alaska tradition. As your Governor, I will work to make sure those traditions endure for future generations.

John
